

Our Clinics - Your Choice

Outcome Driven Approach

“We Prove Our Value Every Step of the Way.”

The entire basis of our clinical offering is that we understand the cause (or causes) of Alzheimer’s disease. To arrive at a final set of causes for which we will treat, we must take you, our patient, through a step-wise set of diagnostic tests. You are free to opt out of any testing we may suggest. There is no commitment on your part at any

time. It is incumbent upon us to prove our value.

- Step 1. Eye Screening
 - Step 2. Markers of Inflammation
 - Step 3. Ultrasonic Screening
 - Step 4. Test of Causes
 - Step 5. Disease Management.
- Goal: Prevent Alzheimer’s or arrest the progression of the disease in those afflicted.

My Insurance?

Staff at RealHealth Clinics have health insurance too. But we recognize that it has limitations, especially for diseases as complex as Alzheimer’s. One side-effect of health insurance is it stymies innovation. Doctors cannot leave the prescriptive codebook on your behalf.

Thus we do not take your health insurance. However, we do help you get reimbursed from your insurance company. Although many of our “a la carte” steps are not covered by insurance, some are. We provide you with the information you need to fill out and submit the new 1500 universal insurance claim form. Our staff is NOT expert on insurance reimbursement but will help you in any way they can.

A First-of-its-Kind A La Carte Healthcare Menu

Our approach to gaining your trust is to prove our worth. We start with a simple eye screening that actually provides a great deal of information about your current and future health status. After the eye test, it is your choice to work with us or to go elsewhere.

work to prove to you that going on to the next “a la carte” test is worth your time and money. We are outcome driven and do not “guess” about your health status. Our tests substantially confirm either the presence or lack of disease. We encourage all our patients, whose testing we have compiled shows a disease process, to continue with us, or at least return to your PCP for appropriate follow-up care.

At RealHealth Clinics is YOUR choice. We will
